MADE BETTER BY

**ELLIS**

# BATHROOM FURNITURE

## MADE BETTER BY ELLIS

Since 1891 Ellis has been making furniture, and we continue today to hand build superior quality rigid furniture for homes across the country.

By creating products that are made better, we've earned a deserved reputation for high standards, outstanding attention to detail, and exceptional value for money, making us one of the most trusted brands in today's market place.

## Bathrooms the Ellis way

People are the secret of our success. Our time-served apprentices use traditional methods alongside cutting-edge technology to lovingly craft our hand built furniture, all made to order.

The result is some of the best furniture available today; beautiful bathrooms that are as visually stunning as they are practical.

All our bathroom ranges are hand-made and delivered complete to your local retailer in a maximum of just three weeks.

J Thomas Ellis, the great grandfather of current directors Richard and Tom Ellis

The Ellis family has had a passion for making furniture since 1891 - that commitment and enthusiasm is continued today in everything we do.

During the past 125 years, four generations of the Ellis family have built a solid business based on core principles of better materials, stylish design, conventional cabinet making skills, and a desire to be the very best we can be.

We use some of the latest technology and advanced machinery to ensure all our furniture is made to exacting standards. That's why we offer a no-quibble 10 year consumer guarantee.\*

# create a look you'll love

## how to work with colour and trends in your new bathroom

Shown here is Ikon Gloss Champagne Metallic from our Desire range

Whether you want a traditional or modern look, we've got it covered across our two stylish ranges: Desire and 1891.

The 1891 collection offers 30 carefully selected paint colours, chosen specifically to work with our luxurious wooden doors.

The Desire collection offers a range of more modern designs in gloss, matt and metallic laminated finishes.

Whatever you choose, it's going to look fantastic and transform your space.

When choosing colour be sure to follow a few simple rules.

1. Consider the source and quality of light in your space before choosing your colour scheme.
2. Don't use dark colours in poorly lit or small spaces.
3. Lighter colours bounce light around small spaces.
4. Look at current design trends. Natural materials such as slate, marble and wood are always popular, whilst we are also seeing a rise in metallic and flat colour finishes, as well as the ever popular gloss options.

Shown here is Rosedale Padstow Blue from our 1891 Collection

## ON-TREND COLOURS

### DENIMS

Denim blues are the go to colour of the year for a versatile and timeless look which hold on their own, contrast well with other colours and can be paired with complementary greys for a contemporary look.

### GREENS

With interior trends looking to bring the serenity found in nature into the home, greens are the perfect colour choice for creating a holistic retreat within a home.

### GREYS

The perfect colour choice for a strong base to add brighter colours too or marry with a palette of greys to create a sophisticated, layered look.

### NEUTRALS

Scandinavian design remains to influence the neutral colour palette. A mix of soft tones paired with natural wood finishes and pops of white define this style.

# shop our range in 5 easy steps

## 01 CHOOSE YOUR DOOR STYLE & FINISH

The first step is to choose your perfect door style. Colour match to your desired bathroom finish or choose a contrast to suit your personality.

## 02 CHOOSE YOUR CARCASES

Select your preferred carcass colour, either to match your door or to contrast to create a truly individual style. (see page 117 for colour options)

## 03 CHOOSE YOUR HANDLE STYLE

The right handle selection and positioning can transform the look of your bathroom, from ultra-modern to elegantly traditional. Choose from our range of 42 handles. (see pages 150-151 for options)

## 04 CHOOSE YOUR WORKTOPS

Choose from our range of worktops styles including laminate, granite, marble, glass, solid oak, or composite, all available in classic and fashionable colours. (see pages 118-120 for options)

## 05 CHOOSE YOUR TAPS AND SANITARYWARE

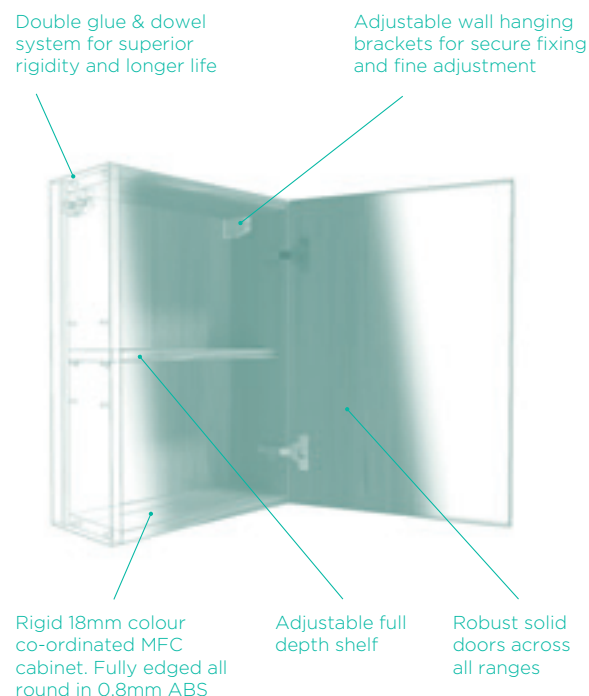

Taps and sanitaryware can have a major effect on the overall look of your bathroom. Choose from our contemporary, classic and traditional styles (see pages 121-125 for options)

visit our website to find your nearest retailer and book a design consultation, or configure your design with our bathroom styler [www.jtellis.co.uk](http://www.jtellis.co.uk)

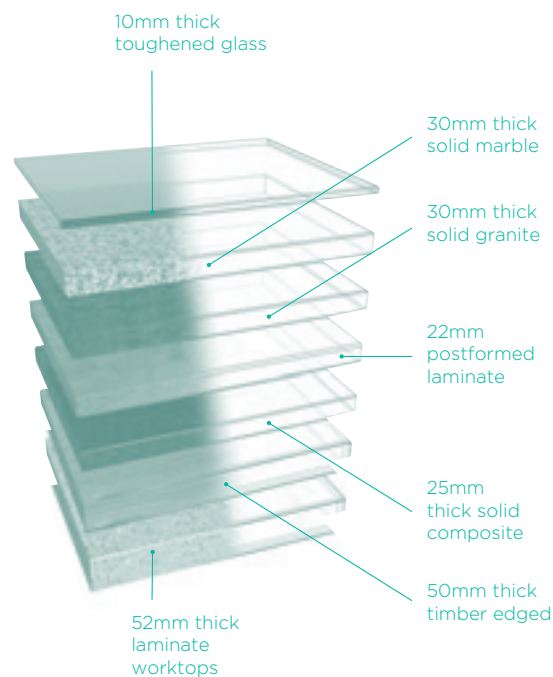

## OUR WALL UNITS

Built from 18mm colour co-ordinated MFC, our wall units are constructed using a double glue and dowel system for superior rigidity and are supplied with flexible fittings for ease of installation.

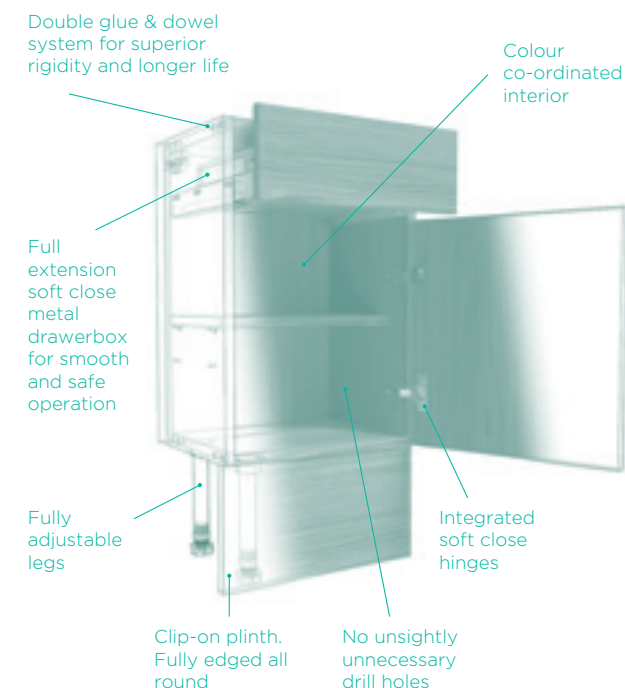

## OUR WORKTOPS

Our comprehensive range of worktops come in both natural and engineered finishes. Choose from toughened glass, marble, granite, timber and composite laminates in a range of depths.

## OUR BASE UNITS

Constructed with strong double glue and dowel, our base units feature soft close hinges and runners for the quality feel you would expect from a premium product.

# 1891 COLLECTION

beautiful bathroom furniture designed and made with care

Buying a new bathroom is an exciting project and we hope that in our 1891 collection you'll not only find the real wood bathroom of your dreams, but also peace of mind that you're choosing the right brand.

The first thing to say is that we've been making real wood bathroom furniture for many decades, and due to the high quality materials and thorough processes, our real wood furniture provides a lifetime of use in all types of bathroom.

All our design and manufacturing processes require human input, so people are involved every step of the way, checking for quality and precision. Much of the finishing work is done by hand too, which is rather rare – and we think very special – in today's

automated world. What's more, all our furniture is made to order, and rigid, which is not always the case in today's mass-produced world. This means that we always know who we're making our furniture for.

We use a 'double glue and dowel' system in all our furniture, which is not common in the industry, but we know our customers want to be safe in the knowledge that their new bathroom cabinets have been built to be trouble free throughout their life, even in the busiest modern family home.

You will also be reassured to know that we look after the environment too, and as a result of our support of the environment our company is FSC® accredited.

Handmade by skilled craftsmen in Huddersfield

Stronger build process using double dowels and glue

The **1891** collection of real wood furniture is available in 30 contemporary colourways and 3 door styles, giving you the freedom to create a truly unique bathroom space

#### 1891 PAINT COLOURS

We offer an unrivalled choice of 30 paint colours which have been carefully selected to reflect the very latest in styles and trends.

Simply choose your colour and our highly skilled team will hand spray your real wood bathroom furniture to ensure a long-lasting, flawless finish.

For the perfect finishing touches, personalise your 1891 furniture with our classic sanitaryware with matching toilet seat and complementary brassware.

## NOTES

# guarantee & customer care

## guarantee

We offer a guarantee, from date of purchase, in respect of faulty materials or workmanship on all products manufactured by Ellis.

This guarantee is limited to domestic use only by the end user and is based on all products being used in the manner for which they were intended and will be

invalid if the products have been abused or misused in any way. The guarantee does not cover general wear and tear. Should a product or part of a product fail during the guarantee period, we will offer a replacement part or a product of nearest available equivalent. Liability is limited to the individual product and does not cover any consequential

loss, damage or further installation costs incurred. The guarantee does not cover electrical goods.

For full terms and conditions please contact our offices.

## Colour reproduction

Whilst every care has been taken to ensure that the contents of this brochure are correct at the time of going to press, the information is for guidance only. All colours shown are reproduced as faithfully as the four colour printing process will allow.

## Amendments

Our policy is one of continuous improvement. Ellis reserve the right, therefore, to amend specifications without prior notice.

## Solid timber and veneer finishes

J.T. Ellis & Co. Ltd. does not guarantee to provide totally matching colours. This is due to the many different materials used in the construction of our furniture. Some shade, colour and grain variation is a natural feature of all real timber due to the natural composition of the material. Even timber taken from the same log will often show variations when stain and lacquer are applied. Since our furniture is made up of a combination of different materials, some natural and some man-made, there are inevitably some variations. J.T. Ellis & Co. Ltd. works very hard to minimise these variations.

## Care and maintenance

Most everyday stains may be removed from units, door fronts and worktops by cleaning with a cloth dampened with soapy water. Do not use any abrasive cleaning agents or scouring pads, wire wool or any similar cleaning aids. Spillages should be wiped off immediately as any liquids left standing can cause damage to worktops, units and plinths. Never chop food or place hot dishes directly on worktops or sinks.

## Installation

Installation should only be carried out by appropriately trained installers. Ellis cannot be held responsible for damage to products during installation, nor for deterioration of products caused as a result of faulty installation.

## FSC®

J.T. Ellis is registered to supply FSC® certified furniture. Please contact J.T. Ellis for advice on FSC® certified furniture availability of our product ranges.

Ellis's FSC® registration code is TT-CoC-002375

ISO 9001: 2008  
Cert No FM 10459

BS OHSAS 18001: 2007  
Cert No OHS 557979

ISO 14001: 2004  
Cert No EMS 508575

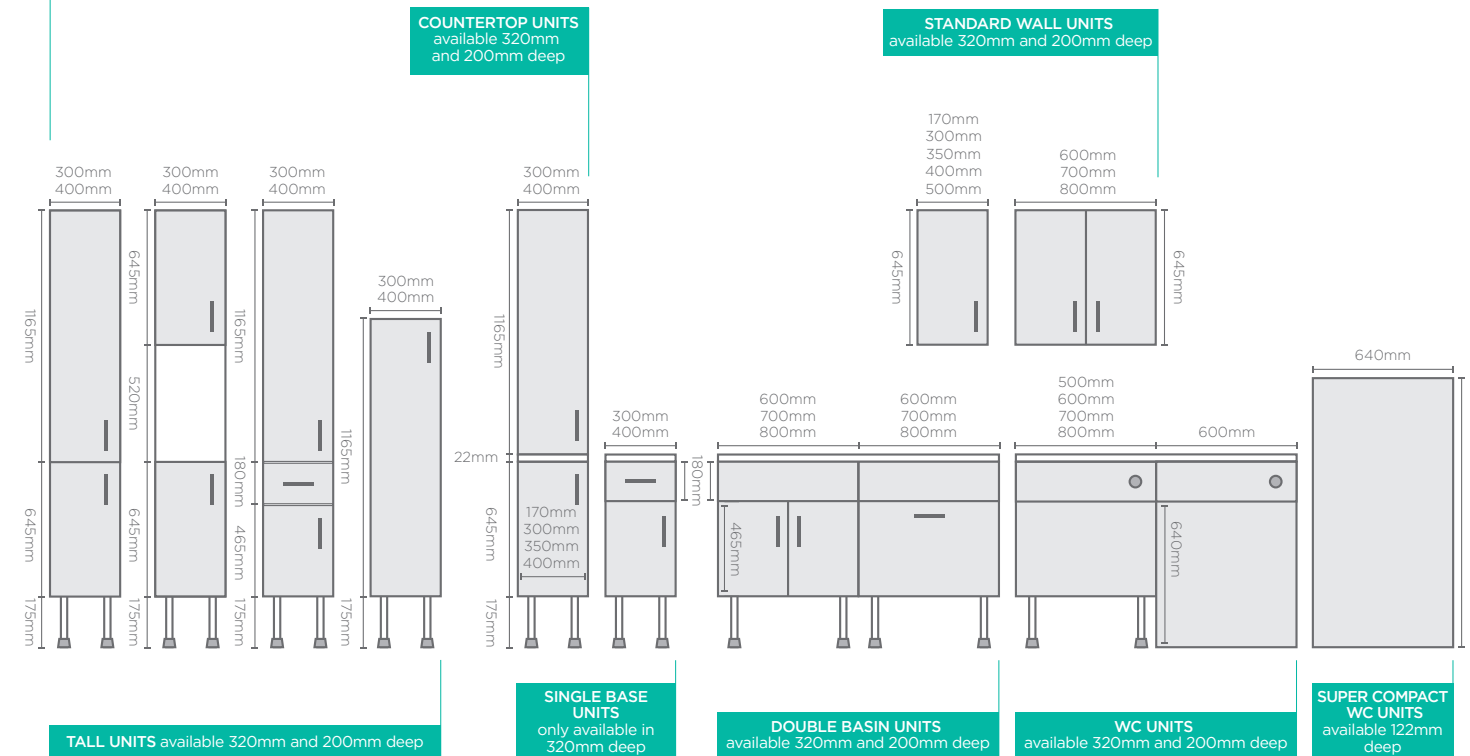

By buying products with the FSC® label you are supporting the growth of responsible forest management worldwide

## Choosing your cabinets

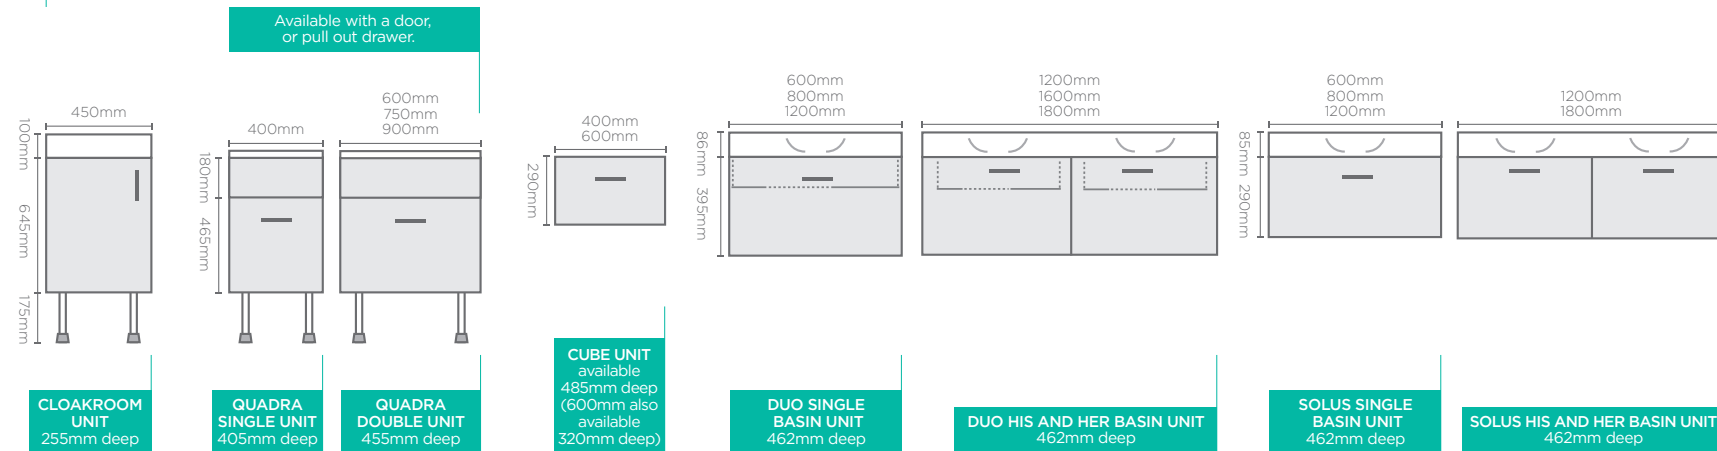

Whether you're looking for a fully fitted wall-to-wall style bathroom design, or a more modular style, our wide range of cabinet sizes and shapes will enable you to bring your ideas to life.

Choose from our fitted cabinet range or our modular cabinet range, or mix them together in your own style. Currently very popular is our 1891 washstand collection, available in an array of natural and painted colourways to suit your interior style.

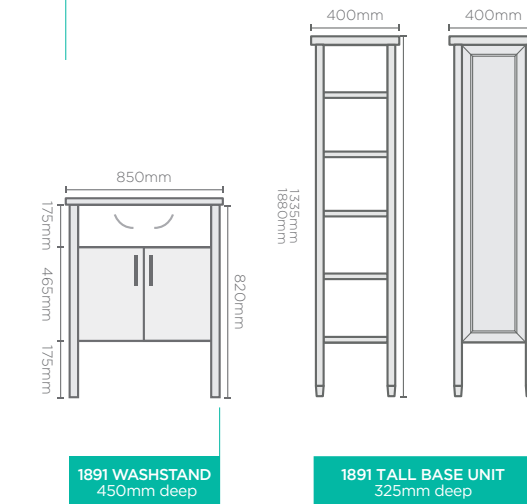

## Fitted furniture cabinet range

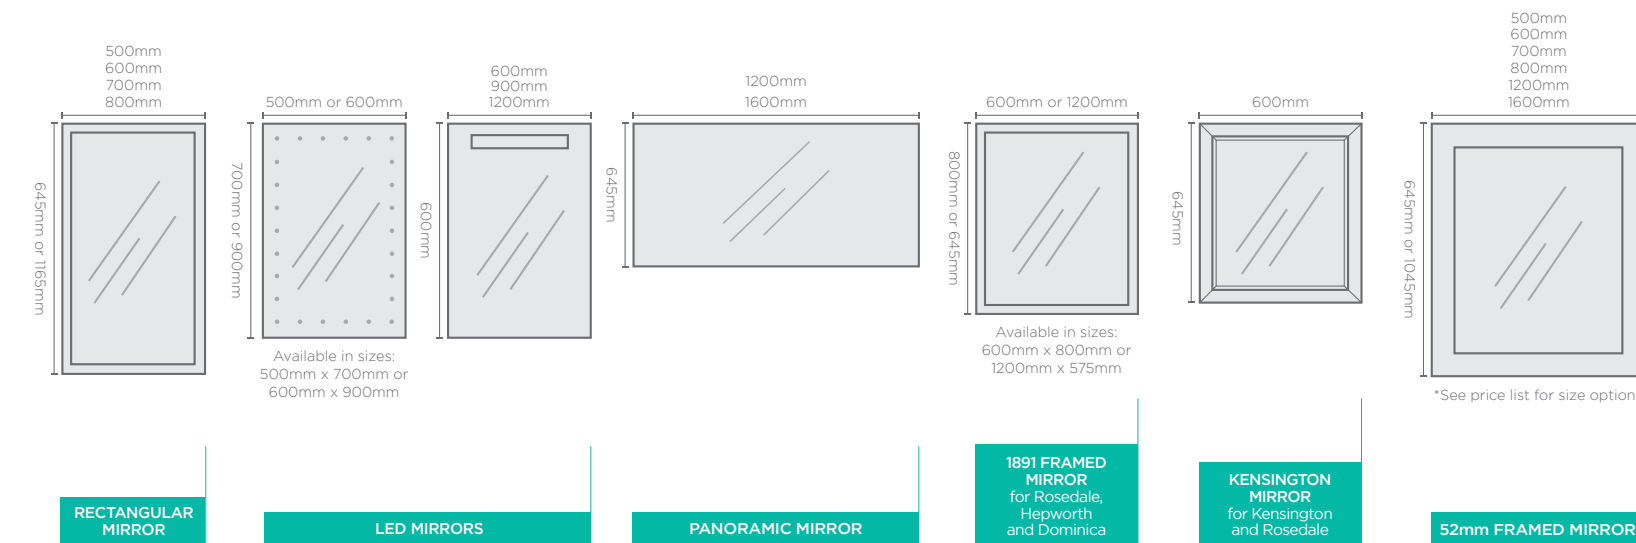

## Modular furniture cabinet range

## Mirrors

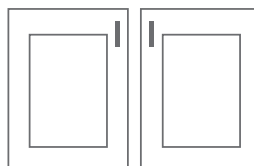

\*\*1891 washstand and tall basin units not available in other ranges

# freedom to design... every cabinet, available in every range

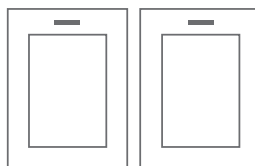

## HANDLE POSITIONING GUIDE

### doors

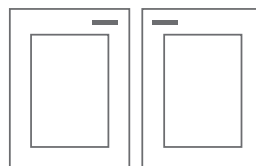

Standard door handle position (where no specific alternative instruction is given) is as right

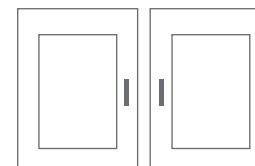

If you require an alternative door handle position, please select from the following options (where narrow doors cannot accommodate a horizontal handle, a vertical handle will be used)

Horizontal Centre (CTR-HOR)

Horizontal Handled (OFF-HOR)

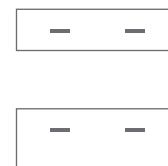

Vertical Centre (CTR-VER)

### drawers

175mm high drawer fronts have handles positioned centrally. Drawer fronts/fascias above 175mm high have off-set handle/s top/bottom according to unit type.

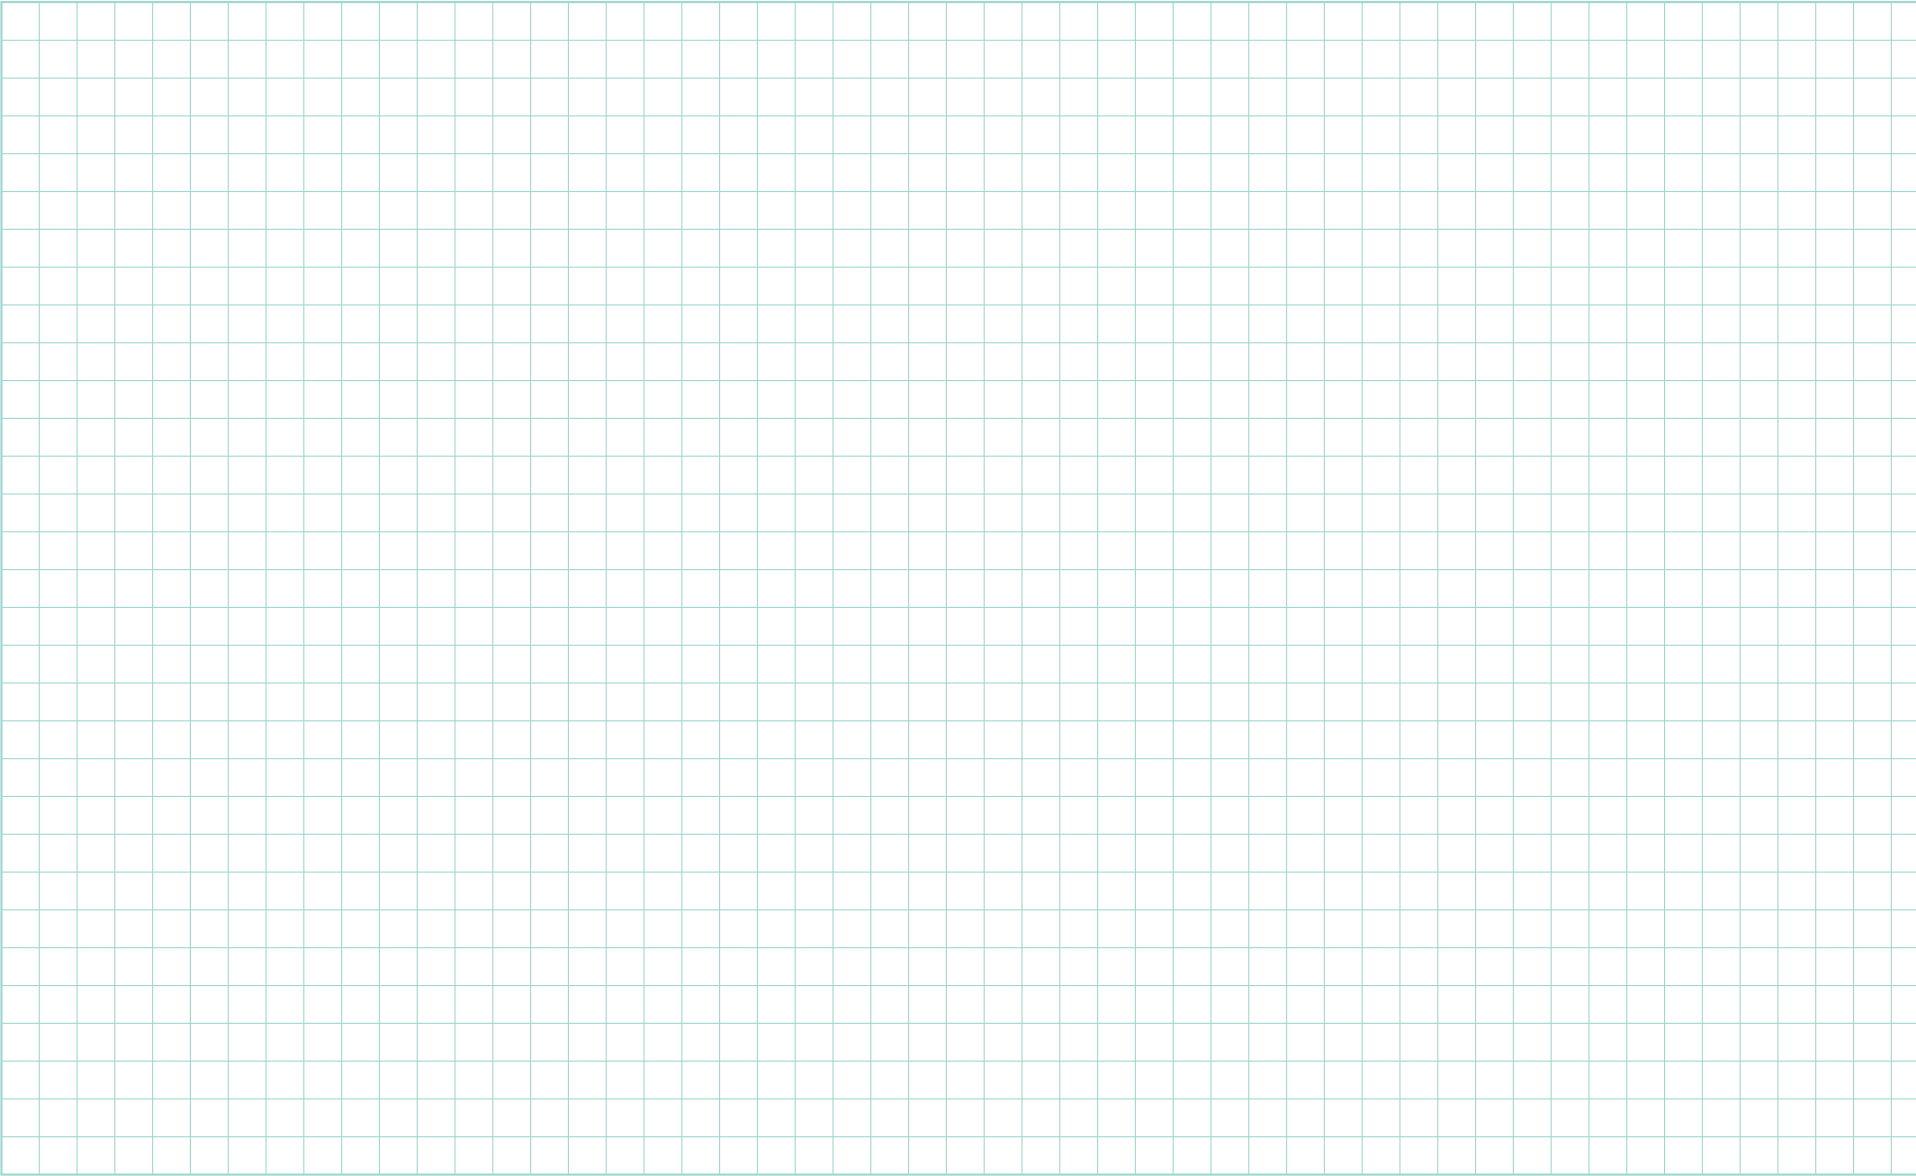

Drawer fronts/fascias less than 900mm have 1 handle

Drawer fronts/fascias 900mm and above have 2 handles. (unless 2 handles are greater than the unit width)

Plan your new bathroom
